EXPERIENCE

2022 - Now

Senior Product Owner

InfoSynch / United States, Oklahoma City, OK

- Lead a team of 10+ in the agile development of a B2B SaaS platform.
- Develop and prioritize a product backlog of over 200 user stories.
- Facilitate daily stand-ups, sprint planning, and retrospective meetings to maintain alignment and productivity across teams.

2016 - 2022

Product Owner

NetTech / Germany, Remote

- Managed the full product lifecycle for a suite of mobile applications, from initial concept through to launch and post-launch optimization.
- Created and maintained detailed product roadmaps and release plans, ensuring timely delivery of features and updates.
- Spearheaded the adoption of agile methodologies across product teams, resulting in a 20% improvement in project delivery times.
- Engaged with key stakeholders to gather requirements and define product visions that aligned with strategic business objectives.

2014 - 2016

Junior Product Owner

NextGen Tech Corp. / China, Guangzhou

- Assisted in the launch of a customer-facing web application, which achieved a 4.5-star rating on major review platforms.
- Collaborated with development teams to refine and implement user stories, acceptance criteria, and test cases.
- Participated in daily stand-ups and sprint reviews to ensure continuous improvement and alignment with agile practices.
