Maria Cole

Professional summary

Dynamic and results-driven Technical Program Manager with a proven track record of successfully leading complex technical projects from conception to completion. Leveraging strong leadership, communication, and technical skills to drive efficiency and innovation in cross-functional teams. Seeking to contribute expertise to a forward-thinking organization poised for growth and development.

Experience

Technical Program Manager

June 2021 - Now

SolsticeSys / United States, Helena, MT

- Lead multiple concurrent technical projects from initiation through delivery, ensuring alignment with organizational objectives.
- Collaborate with cross-functional teams including engineers, product managers, and quality assurance to define project scope.
- Implement Agile methodologies to streamline development processes, improve team collaboration, and increase project efficiency.
- Facilitate regular communication and reporting with project stakeholders, providing updates on project status, risks, and dependencies.

Software Engineer

March 2018 - June 2021

MindMeld / United States, Helena, MT

- Designed and developed software solutions for clients in various industries, focusing on usability, performance, and scalability.
- Implemented best practices in software engineering including code reviews, testing, and documentation to ensure high-quality deliverables.
- Participated in Agile ceremonies such as sprint planning, daily stand-ups, and retrospectives to drive continuous improvement and delivery.

Intern

March 2017 - April 2018

MindMeld / United States, Helena, MT

- Assisted project managers and technical leads in coordinating project activities, tracking progress, and resolving issues.
- Supported testing and quality assurance efforts by executing test cases, documenting results, and identifying defects for resolution.
