

Software Engineer

Sylvia Hardy

Professional summary

Dedicated and detail-oriented Computer Science graduate with a strong foundation in programming languages such as Java, Python, and C++. Experienced in web development using HTML, CSS, and JavaScript, with a focus on creating efficient and user-friendly applications. Proven ability to collaborate effectively in team settings, deliver high-quality code, and solve complex technical problems.

Experience

Software Engineer Intern

November 2023 - Now

CSDData / United States, New York, NY

- Develop and maintain backend services using Java and Spring Framework.
- Collaborate with cross-functional teams to deliver project milestones on time.
- Implement unit tests and participate in code reviews to ensure code quality.

IT Support Technician

April 2022 - March 2023

Data Systems Co. / Remote

- Provided technical support for hardware and software issues for a team of 100+ employees.
- Managed and maintained network infrastructure, ensuring 99.9% uptime.
- Conducted training sessions for new employees on IT systems and protocols.

Projects

E-commerce Website Development

The State University of New Jersey, 2023

- Designed and developed a responsive e-commerce website using HTML, CSS, and JavaScript.
- Integrated payment gateway and implemented user authentication and authorization.

Machine Learning Project

The State University of New Jersey, 2022

- Implemented a sentiment analysis model using Python and TensorFlow to classify customer reviews.
- Achieved an accuracy rate of 90% through data preprocessing and model optimization.
