

Senior Angular Developer

Michael Johnson

Professional summary

Senior Angular Developer with over 8 years of experience leading front-end teams and architecting enterprise-level web applications. Proven ability to drive high-impact projects, mentor junior developers, and implement cutting-edge technologies to create robust, user-friendly applications.

Experience

Lead Angular Developer

March 2022 - Now

TechSync Solutions / San Francisco, CA

- Lead the development of a large-scale e-commerce platform, managing a team of 5 Angular developers to deliver the project within deadlines and budget.
- Architect and develop the application using Angular 14, RxJS, NgRx, and Angular Universal to ensure seamless server-side rendering for better SEO and performance.
- Mentor junior developers, providing guidance on Angular best practices and conducting regular code reviews.

Senior Front-End Developer

July 2018 - March 2022

BrightTech Innovations / San Francisco, CA

- Spearheaded the development of an Angular-based SaaS product, leading the transition from a monolithic architecture to microservices.
- Integrated Angular with RESTful APIs and implemented state management using NgRx to handle complex data flows across the application.
- Collaborated with back-end engineers to design and implement a scalable and secure authentication system using OAuth2 and JWT.

Angular Developer

June 2017 - July 2018

WebForge Technologies / San Francisco, CA

- Developed and maintained several Angular web applications for clients in the finance and healthcare sectors.
- Implemented responsive, mobile-first design principles using Angular and Bootstrap to enhance user experiences across devices.
- Worked closely with back-end teams to integrate REST APIs, ensuring fast, reliable data transfer.
