EXPERIENCE

2017 - Now

Environmental Health Specialist

Massachusetts Department of Public Health – Boston, MA

- Perform health risk assessments for communities exposed to industrial pollutants, reducing illness rates by 15%.
- Investigate environmental contamination incidents, leading to the successful remediation of three Superfund sites.
- Collaborate with epidemiologists to study long-term effects of air and water contaminants on public health.

2013 - 2017

Research Scientist

Harvard T.H. Chan School of Public Health – Cambridge, MA

- Led a study on the correlation between pesticide exposure and chronic diseases, influencing state pesticide policies.
- Authored peer-reviewed articles on environmental health risks, cited in over 50 publications.
- Assisted in the development of training programs for local health officials.

VOLUNTEER WORK

Clean Air and Water Initiative

Boston, MA

- Organized community workshops on the health impacts of pollution.
- Supported local schools by designing curricula for environmental health awareness programs.
