

Professional summary

Experienced React Native Developer with mobile development experience. Proficient in building and deploying high-performance mobile applications for both iOS and Android platforms using React Native, Redux, and Firebase.

Experience

React Native Developer

January 2022 - Now  
Mobile Innovations Inc. / Austin, TX

- Integrate Firebase for real-time data synchronization, authentication, and push notifications.
- Ensure app performance optimization for speed, responsiveness, and memory usage.
- Collaborate closely with backend teams to integrate third-party services, APIs, and databases seamlessly.
- Conduct code reviews and mentor junior developers to promote best practices.

Junior React Native Developer

June 2019 - December 2021  
App Development Studio / Austin, TX

- Assisted in developing and maintaining mobile applications using React Native for a range of client projects.
- Focused on improving app performance by debugging and resolving performance bottlenecks.
- Collaborated with UX/UI designers to ensure an intuitive, user-friendly mobile app interface.

Volunteering

Mobile Development Mentor

January 2020 - Now  
Tech for Good, Austin, TX

- Mentor a group of aspiring mobile developers, providing guidance on React Native development, app design, and debugging practices.
- Help organize weekly coding workshops and hackathons to improve community engagement and learning.
