Experience

BrightCare Home Health

2021 - Now

San Diego, CA

Home Patient Care Assistant

- Provide one-on-one care for patients in their homes, assisting with daily living tasks like bathing, grooming, and dressing.
- Manage medication schedules, ensure timely administration, and monitor patient reactions to treatments.
- Monitor patients' vital signs regularly and report any significant changes to medical professionals.
- Provide physical and emotional support by fostering a caring, patient-focused environment, ensuring patients' well-being.

Compassionate Care Services

2017 - 2021

San Diego, CA

Home Patient Care Assistant

- Assisted elderly and disabled patients with daily activities, including feeding, dressing, and personal hygiene, to promote independence.
- Provided transportation to medical appointments and assisted with walking and physical therapy exercises.
- Developed personalized care plans in collaboration with family members to meet each patient's specific needs.
- Maintained patient records, updated health status reports, and communicated any concerns with family or medical teams.
