

Prospective Utilization Review Nurse

Jennifer Green

Professional summary

Detail-oriented and compassionate Prospective Utilization Review Nurse with experience in assessing medical necessity for pre-authorization processes. Skilled in analyzing treatment plans, ensuring compliance with healthcare policies, and facilitating efficient care delivery. Adept at working with physicians, insurance providers, and healthcare teams to improve patient outcomes and minimize costs.

Experience

Prospective Utilization Review Nurse

June 2020 - Now

UnitedHealthcare / Houston, TX

- Review pre-authorization requests for medical procedures and treatments, ensuring they meet clinical guidelines and insurance requirements.
- Collaborate with healthcare providers to clarify treatment plans and provide recommendations for alternative therapies when necessary.
- Utilize clinical decision-making tools such as InterQual and MCG to assess the appropriateness of requested procedures.
- Achieved a 15% reduction in approval turnaround time by streamlining communication with healthcare providers.
- Provided educational support to physicians and healthcare teams about insurance policy requirements and pre-authorization processes.

Registered Nurse

May 2017 - May 2020

Memorial Hermann Health System / Houston, TX

- Delivered patient care in a fast-paced emergency department, coordinating with physicians and specialists.
- Assessed patient health conditions, ensuring accurate documentation and implementation of treatment plans.
- Assisted with patient admissions, discharge planning, and post-operative care.
- Trained new nursing staff on patient care protocols and safety guidelines.

Professional Development

- Ongoing training in InterQual Clinical Decision Support System
- Completed 20 hours of continuing education in Medical Coding and Billing, 2023
- Attended the Healthcare Utilization Management Conference, 2022
