CT Assistant with of hands-on radiology experience supporting technologists in trauma and diagnostic CT imaging. Skilled in patient preparation, contrast media management, and strict adherence to radiation safety standards. Proven track record of improving patient comfort and minimizing procedural delays.

## EXPERIENCE

### CT Technician Assistant

2019 - 2025

#### UC Davis Medical Center, Sacramento, CA

- Assisted CT technologists during trauma and diagnostic scans by preparing patients and positioning accurately for optimal imaging.
- Prepared and managed contrast injections, ensuring timely delivery and proper dosage according to protocols.
- Monitored patients throughout procedures, providing reassurance and reducing scan refusals by 10%.
- Maintained and sterilized lead aprons, scan tables, and injection equipment to ensure readiness and prevent delays.
- Documented procedures and assisted with PACS image logging for accurate record keeping and compliance.
