MATTHEW FLYNN DNP, CPNP-AC

PEDIATRIC NURSE PRACTITIONER

PROFESSIONAL SUMMARY

Board-certified Pediatric Acute Care Nurse Practitioner with a Doctor of Nursing Practice degree and critical care experience. Expert in evidence-based interventions for critically ill children, focusing on cardiopulmonary conditions, sedation management, and family-centered approaches.

EXPERIENCE

- February 2023 - Now

Pediatric Nurse Practitioner – Intensive Care Unit

Boston Children's Hospital /

- Manage caseloads of up to eight critically ill pediatric patients under attending supervision.
- Develop and implement individualized treatment plans, interpret laboratory and imaging results, and document progress comprehensively.
- Engage actively in multidisciplinary rounds, provide family updates, and facilitate palliative care conversations.
- Serve as a member of the Pediatric ICU Ethics Committee, contributing to patient care guidelines and complex case reviews.

- May 2016 - January 2023

Pediatric Intensive Care Unit Registered Nurse

Massachusetts General Hospital /

- Delivered high-level nursing care to critically ill pediatric patients, managing ventilators, sedation protocols, and emergency interventions.
- Collaborated closely with healthcare teams to optimize patient outcomes through timely assessments and interventions.
- Participated in quality improvement projects and nursing education initiatives within the PICU.
