Early Intervention BCBA

PROFESSIONAL SUMMARY

Compassionate BCBA with 3 years of experience specializing in early intervention for toddlers and preschool-aged children diagnosed with autism spectrum disorder (ASD). Strong background in play-based therapy, parent training, and developmental assessments.

EXPERIENCE

BCBA, San Diego Early Autism Program, United States, San Diego, CA

May 2022 - Now

- Conduct developmental assessments and design early intervention programs for children under 5 years old.
- Use play-based therapy techniques to promote social skills, language development, and adaptive behavior.
- Collaborate with speech therapists and occupational therapists to create comprehensive treatment plans.
- Provide parent coaching on behavior strategies for use in the home setting.

ABA Therapist, Autism Learning Center, United States, San Diego, CA

July 2021 - April 2022

- Provided in-home and clinic-based ABA therapy to young children with ASD.
- Assisted with data collection, treatment plan revisions, and parent communication.
