PROFESSIONAL SUMMARY

Proficient UI Developer with a strong foundation in front-end development, specializing in translating UX designs into responsive, user-friendly interfaces. Experienced in optimizing website performance and enhancing user engagement for global brands.

EXPERIENCE

October 2019 - Now

Ui Developer

Amazon / United States, Seattle, WA

- Implement responsive design for the homepage, improving mobile accessibility and driving a 40% increase in mobile traffic.

- Collaborate with UX designers to translate wireframes into high-quality code, maintaining consistent user experiences across browsers.

- Optimize website loading time, reducing bounce rate by 15% and increasing average session duration.

June 2016 - September 2019

Front End Developer

Microsoft / United States, Redmond, WA

- Developed reusable components for the company's internal design system, improving team efficiency by 25%.

- Conducted user feedback sessions and incorporated insights into the codebase, enhancing accessibility for users with disabilities.

- Partnered with QA teams to troubleshoot and resolve UI bugs, resulting in a 20% decrease in support tickets.

EDUCATION

2012 - 2016

Bachelor of Science in Computer Science

University of Washington / United States, Seattle, WA
