PROFESSIONAL SUMMARY

Passionate Pediatric Sonographer with over 7 years of experience specializing in ultrasound imaging for pediatric patients. Skilled in creating a comforting environment for children and families while producing high-quality diagnostic images. Dedicated to providing accurate diagnostic results and patient-centered care.

EXPERIENCE

Pediatric Sonographer

2018 - Now

Miami Children's Hospital, United States, FL

- Specialize in pediatric ultrasound procedures, including abdominal, cardiac, and musculoskeletal scans for infants, children, and adolescents.
- Provide exceptional patient care, ensuring children feel comfortable during imaging procedures.
- Collaborate with pediatricians and pediatric cardiologists to interpret ultrasound images and aid in treatment planning.
- Maintain accurate medical records and assist with follow-up appointments as needed.

Sonography Intern

2017 - 2018

Florida Pediatric Imaging Center, United States, Miami, FL

- Assisted senior pediatric sonographers in performing ultrasound scans for young patients.
- Gained hands-on experience in pediatric sonography and developed excellent communication skills in a pediatric setting.
- Participated in training on pediatric patient positioning and handling.

SKILLS
