PROFESSIONAL SUMMARY

Skilled VFX Animator with a strong background in creating photorealistic visual effects for blockbuster films and commercials. Experienced in 3D modeling, compositing, and motion tracking, aiming to contribute creative VFX work to exciting cinematic projects.

EXPERIENCE

July 2020 - December 2024

VFX Animator

Industrial Light & Magic / United States, San Francisco, CA

- Created realistic VFX animations for several high-budget feature films and commercials.
- Worked with the VFX team to develop motion capture data and integrate it into 3D environments.
- Used software such as Houdini, Nuke, and After Effects to create simulations.
- Collaborated with directors and VFX supervisors to ensure all effects met the creative goals.

June 2018 - July 2020

Junior VFX Animator

Weta Digital / United States, Wellington, NZ

- Assisted with the animation and compositing of visual effects for major film projects.
- Worked with senior animators to refine animations and improve visual impact.
- Created simulations for environmental effects like explosions, smoke, and water.

EDUCATION

2014 - 2018

Bachelor of Arts in Digital Arts

University of California, Berkeley / United States

VOLUNTEER WORK

April 2021 - Now

VFX Mentor

Girls Who Code, San Francisco, CA

- Volunteer mentor for aspiring female animators and VFX artists, providing guidance on career development, software tools, and portfolio building.
