

# Full-Stack Junior Software Engineer

## Gary Mixon

### Professional summary

Versatile junior full-stack developer with expertise in end-to-end web application development. Excited to bring my skills to ElevateTech Solutions to deliver seamless and high-performing software solutions.

### Experience

#### Freelance Full-Stack Developer

March 2023 - Now

Remote /

- Build and deploy a web-based CRM for a small Seattle-based business using Vue.js and Django.
- Design intuitive dashboards and implement secure database handling for sensitive customer data.
- Work closely with stakeholders to refine features based on user feedback.

#### Full-Stack Developer Intern

July 2023 - October 2023

ElevateTech Solutions / Seattle, WA

- Developed a full-stack e-commerce application using React and Node.js, handling over 1,000 concurrent users.
- Integrated Stripe API for seamless payment processing.
- Deployed the application on AWS, achieving 99.9% uptime.

### Projects

- Recipe Finder (React, Node.js): Built a recipe search app with a responsive UI and backend API integration.
- Event Booking System (Vue.js, Django): Created a platform for booking events, featuring a calendar view and payment integration.

### Volunteer Work

#### TechBridge Seattle

2022 - Now

Volunteer Developer

- Contributed to the development of a job board application connecting underrepresented groups with local tech companies.
- Refactored front-end components to improve user experience and collaborated on API enhancements for search filters.
