

TOM RICHARDS

Senior JavaScript Developer

(369) 545-2686

tom.richards@gmail.com

United States, San Francisco, CA

PROFESSIONAL SUMMARY

Experienced Senior JavaScript Developer with experience in building dynamic, high-performance web applications. Skilled in designing, developing, and optimizing scalable applications using JavaScript frameworks such as Angular, React, and Vue.js. Proven leadership experience in mentoring junior developers and overseeing large-scale development projects.

EDUCATION

2009 - 2013

Bachelor of Science in Computer Science

University of California, Berkeley / United States

Certified JavaScript Developer

W3C Certification Program / Certified: June 2020

Advanced React Developer Certification

Udemy / Certified: November 2021

SKILLS

- Advanced proficiency in JavaScript (ES6+), React, Node.js, and Angular Expert
- Front-end development: HTML5, CSS3, SASS, LESS, JavaScript frameworks Expert
- Version control using Git and GitHub Expert
- Strong understanding of asynchronous programming (Promises, async/await) Expert
- RESTful API integration and third-party API services Expert
- Performance optimization techniques (lazy loading, code splitting, etc.) Expert
- Agile methodology and Scrum Expert
- Excellent communication and leadership skills Expert

EXPERIENCE

2022 - Now

Lead JavaScript Developer

Tech Innovators / United States, San Francisco, CA

- Lead a team of 10 developers to build and optimize a large-scale e-commerce platform used by millions of users globally.
- Architect JavaScript solutions using React.js, Redux, and Node.js.
- Optimize performance by identifying bottlenecks.
- Collaborate closely with the UX/UI to ensure seamless integration of design.
- Conduct code reviews, write unit tests, and mentor junior developers.

2016 - 2021

Senior JavaScript Developer

Web Solutions / United States, San Francisco, CA

- Developed single-page applications (SPAs) using React and Angular.
- Integrated APIs, external data sources, and third-party services into applications to enhance functionality.
- Optimized application speed and load time by implementing lazy loading, efficient data handling, and minimizing API calls.

2014 - 2016

JavaScript Developer

Code Gurus / United States, San Francisco, CA

- Worked on various web development projects, including e-commerce sites and content management systems (CMS).
- Developed responsive web pages and ensured compatibility with various browsers and devices using HTML5, CSS3, and JavaScript.
- Assisted in the migration of legacy systems to modern JavaScript frameworks.

Projects

Developed a full-stack application for task and project management, integrating front-end components built with React.js and a back-end powered by Node.js.
