EXPERIENCE

2018 - Now

Senior React Developer TechNova Solutions / Austin, TX

- Develop and maintain React applications for enterprise clients, handling complex state management with Redux.
- Improve app performance by 25% using code-splitting and lazy loading techniques.
- Collaborate with designers and product managers to deliver user-centric features.
- Integrate third-party APIs and ensure seamless data flow using GraphQL.

2016 - 2018

Front-End Developer BrightPixel Digital / Austin, TX

- Created reusable React components to streamline development and maintain consistency across projects.
- Conducted code reviews to ensure adherence to best practices and maintain code quality.
- Built dynamic dashboards for data visualization using D3.js and Chart.js.

OPEN SOURCE CONTRIBUTIONS

- Actively contributed to the React Open Source community, including resolving issues and submitting pull requests for popular libraries like React Router.
