

Labor And Delivery Nurse

Jane Starr

Professional summary

Compassionate and experienced Labor and Delivery Nurse with experience in a fast-paced hospital environment. Seeking to provide high-quality care at Bellevue Hospital to support mothers and newborns through labor, delivery, and recovery.

Experience

Labor and Delivery Nurse

July 2016 - Now

Mount Sinai Hospital / New York, NY

- Provide direct nursing care to laboring mothers, including monitoring fetal heart rates, maternal vital signs, and labor progress.
- Administer medications and epidurals as needed and collaborate with obstetricians to ensure safe and effective deliveries.
- Conduct postpartum assessments and provide education on infant care and breastfeeding.
- Mentor and support new nurses in the department and assist with orientation programs.

Labor and Delivery Nurse

May 2014 - June 2016

New York Presbyterian Hospital / New York, NY

- Assisted in labor and delivery care by monitoring patient status, documenting all interventions, and coordinating with the medical team.
- Assisted in emergency deliveries and worked closely with NICU staff for high-risk newborns.
- Provided pre- and post-delivery care and education for families regarding labor stages and postpartum recovery.

Professional Development

- Attended annual "Labor and Delivery Nurses Conference" (2021, 2023, 2024)
- Participated in continuing education courses on "Postpartum Care" and "Fetal Monitoring" (2021)
