PROFESSIONAL SUMMARY

Compassionate and results-driven Pediatric Speech-Language Pathologist with experience diagnosing and treating speech and language disorders in children. Adept at creating individualized therapy plans, collaborating with interdisciplinary teams, and fostering positive relationships with children and their families.

EXPERIENCE

Pediatric Speech-Language Pathologist

2019 - Now

Austin Children's Hospital

- Conduct assessments to evaluate speech, language, and communication skills in children with developmental delays.
- Develop and implement individualized treatment plans based on assessment results.
- Collaborate with parents, teachers, and other professionals to design and implement strategies to improve children's speech.
- Maintain accurate patient records, progress notes, and treatment plans, ensuring compliance with HIPAA regulations.
- Provide parent education on speech and language development milestones and strategies for home-based reinforcement.

Speech-Language Pathology Intern

2019 - 2019

Texas Speech and Hearing Center, Austin, TX

- Assisted senior therapists with speech and language assessments and treatments for pediatric patients in an outpatient setting.
- Worked with children on speech articulation, social communication skills, and language comprehension through structured play-based therapy sessions.
- Helped design therapy exercises for children with various disabilities, including cerebral palsy, down syndrome, and autism spectrum disorder.
