To Ms. Callahan

Federal Aviation Administration

Dear Ms. Callahan,

I am applying for the Air Traffic Control Specialist position at the Washington Air Route Traffic Control Center. I graduated from the FAA Air Traffic Collegiate Training Initiative (CTI) program at UND and passed the ATSA with a high score.

During my tower internship at Hector International Airport, I managed real-time simulated operations and demonstrated proficiency in strip marking, phraseology, and traffic sequencing. I perform well under pressure and communicate with clarity.

The FAA's mission to ensure safe, orderly, and efficient airspace inspires me. I'm ready to apply my skills in a high-volume center like ZDC, where vigilance and precision are essential.

I appreciate your consideration and look forward to next steps.

Respectfully,

Daniel Yu
