Participated in OR Nurse Residency Leadership Committee at Swedish Medical Center, contributing to curriculum updates and feedback surveys.

## LANGUAGES

- Fluent in Spanish

## PROFESSIONAL SUMMARY

Detail-oriented perioperative registered nurse with experience assisting in surgical procedures, ensuring optimal patient care, and maintaining high standards of safety in fast-paced OR settings. Skilled in pre-op and post-op care, interdisciplinary coordination, and sterile technique.

## EXPERIENCE

### Perioperative Registered Nurse

2021 - Now

#### Swedish Medical Center, Seattle, WA

- Collaborate with anesthesiologists, surgeons, and surgical techs to ensure timely, sterile, and safe surgical procedures across orthopedic, general, and cardiac specialties.
- Conduct comprehensive preoperative assessments, flagging potential risk factors and ensuring all consent and allergy documentation was complete.
- Monitor patients during operations, managing IV fluids, positioning, and response to anesthesia while responding to emergent complications.
- Assist in post-op recovery handoffs to PACU, ensuring continuity of care with detailed verbal and written reports.

### OR Nurse – Surgical Float Team

2017 - 2020

#### Harborview Medical Center, Seattle, WA

- Supported various surgical departments, including trauma and neuro, adapting quickly to different teams, instruments, and procedures.
- Maintained strict compliance with infection control and surgical count protocols, resulting in zero count discrepancies for 3 consecutive years.
- Educated patients and families about procedure timelines and post-op expectations, improving satisfaction scores in the perioperative department.
