SKILLS

SIEM Tools (Splunk, AlienVault)

Vulnerability Scanning (Nessus, Qualys)

Incident Response and Forensics

Security Audits and Compliance (NIST, ISO 27001)

Data Encryption and Backup Strategies

Emily Brooks

Cybersecurity Analyst

PROFESSIONAL SUMMARY

Detail-oriented Cybersecurity Analyst with experience in risk assessment, threat analysis, and security monitoring. Adept at identifying vulnerabilities and mitigating risks to ensure system integrity and confidentiality. Eager to apply strong analytical skills and passion for cybersecurity in a growing organization.

EXPERIENCE

■ August 2025 - Now

Cybersecurity Analyst Intern, CyberTech Solutions

- Assist in conducting security assessments and vulnerability scans on internal systems.
- Monitor security logs and alerts using SIEM tools like Splunk and AlienVault.
- Support the development and implementation of security policies and procedures.
- Collaborate with cross-functional teams to ensure the security of software and hardware systems.

■ June 2023 - August 2023

IT Help Desk Technician, TechPro Services

- Provided technical support to end-users, troubleshooting network, hardware, and software issues.
- Ensured system security through regular software updates and patch management.
- Assisted in data backup and recovery processes, maintaining integrity during system restoration.

EDUCATION

■ Bachelor of Science in Information Security and Assurance, University of Illinois, Graduated: May 2025

- Relevant Coursework: Threat Analysis, Security Audits, Incident Handling

■ Certifications

- **Certified Information Systems Security Professional (CISSP)** | Date: July 2024 (Exam Passed, awaiting certification)
- **CompTIA Cybersecurity Analyst (CySA+)** | Date: May 2023
