Penetration Tester

Sarah Mitchell

PROFESSIONAL SUMMARY

Self-motivated and highly analytical entry-level Penetration Tester with expertise in ethical hacking, vulnerability assessment, and risk analysis. Seeking to apply my skills in identifying and exploiting system vulnerabilities to improve security postures for organizations.

EXPERIENCE

Penetration Testing Intern, SecureTech Inc., Los Angeles, CA
May 2025 - November 2025

- Conducted vulnerability assessments and penetration testing on web applications, networks, and mobile platforms.
- Used tools like Metasploit, Burp Suite, and Wireshark to identify security flaws and report on findings.
- Assisted in developing risk reports and recommendations for remediation.
- Worked with security teams to implement corrective actions and validate fixes.

IT Intern, CyberGuard Solutions
May 2024 - May 2025

- Assisted with network security assessments, including firewall configuration and port scanning.
- Provided support for IT staff during vulnerability scans and system updates.
- Helped with patch management and application of security patches across systems.

EDUCATION

Bachelor of Science in Information Technology, University of California, Graduated: May 2025

Relevant Coursework: Ethical Hacking, Penetration Testing, Network Security

Certifications

- **Offensive Security Certified Professional (OSCP)** | Certification Date: June 2023
- **Certified Ethical Hacker (CEH)** | Certification Date: May 2023
